WELCOME

Khamma Ghani

The traditional Marwari welcome you will hear at the door. The polite reply, if you would like to try it, is "Ghani Khamma".

Aaramgah means a place of rest. We built the resort in Village Kotra, among the fields and granite hills of Jawai, for travellers who come for the leopards and stay for the quiet: 22 Premium Rooms, 10 Luxury Villas with private heated plunge pools, a spa, a long blue pool and lawns that turn into wedding venues by night.

Aaramgah Jawai Resort & Spa is a member of Radisson Individuals Retreats. The resort keeps its own name, its own kitchen and its own way of doing things.

About Aaramgah at aaramgahjawai.com

THE PLACE

Leopards on *granite*

Jawai is unlike any other big-cat landscape in India. There are no forest walls here: leopards rest on smooth granite domes and in the caves beneath them, watching over fields, temples and the flocks of Rabari herders who have lived alongside them for generations.

Our team arranges two drives a day in open jeeps with experienced local drivers and trackers, all year: one at dawn, and one in the afternoon that returns by sunset, about three hours each. Sloth bears, striped hyenas and nilgai share the hills too. These are wild animals, so no sighting can be promised; two or three drives improve your odds. Jawai is leopard country: there are no tigers here.

HOW WE DO THINGS

Small things, done *on purpose*

Dark skies

Paths and gardens are softly lit on purpose, to cut light pollution. You will thank us when you see the stars.

Gentle on water

Jawai is dry country, so we save water where we can and reuse linen on request.

Open to all

The whole resort was built to be accessible, from arrival to the pool.

Rooted in place

Rajasthani recipes at Amruttulya, ochre walls and a garden temple with tulsi, rudraksha and other sacred plants.

Respect for the hills

For centuries, leopards and the Rabari have shared these hills in a rare, quiet harmony. Our safaris keep their distance.

A pond left a little wild

The joggers' path passes a lotus pond that is a living ecosystem, not a water feature.
